Nestled amidst the green landscape of Ontario, Canada, Pefferlaw Farms has stood as a trusted brand in the lawn and garden soil industry since 1954. Encompassing a spectrum that includes garden soils, mixes, container potting blends, composted manures, and lawn dresser, our earths are carefully nurtured through annual audits and backed by Pro-Cert Systems Ltd.'s certification. This meticulous care ensures our products are free from fungicides and pesticides, while carefully maintaining Canadian Organic Standards. This careful attention to sourcing and supplying ensures that the earth we package is the absolute best for your needs.

Our expertise extends beyond the realm of organics, and into a collection landscaping offerings – gravel, limestone, sand, and decorative stone. Born from a legacy that is rooted in pure soil, Pefferlaw Farms is revered for their artistry in sourcing, refining, packaging, and orchestrating bulk materials, with an unwavering devotion to the organic. Our modern packaging plant, expert management team, commitment to safety and efficiency, and most importantly our exceptional product, make us a trusted name in the industry. 🌱

### 3 Way Mix

Provides nutrients to feed plants, improves aeration and increases water holding capacity. Made from peat humus, peat fiber, & composted barnyard manure

Available in 30L Bags 80/skid

### Cattle / Sheep Manure

Improves aeration. Provides nutrients, and increases water holding capacity in soil. Composted naturally and then blended with peat humus.

Both available in 15kg bags 80/skid

### Top Soil

Use for lawns or gardens. Improves aeration and water holding capacity. Contains 100% organic material.

Available in 25L Bags 105/skid
